“ My thoughts are with the Starker family, and I wish them the very best. I appreciated Barte's kindness to an acquaintance like myself, his understated presence that did not diminish his effective collaboration and leadership, and his exceptional family. I also appreciated his dogged battling against the debilitating symptoms of Parkinson's disease: my father also had Parkinson's, also died relatively young from its complications, so I'm left with a sense of how much strength and willpower it takes to finish strong. That's what Barte did-- he lived well and finished strong-- and in so doing he should be an inspiration to us all.

“ I am so sorry for the loss of Barte Starker. We were neighbors in childhood & I remember well the special whistle-call he and my older brother, Dave, would make to each other. We all rode the bus together to school. He was always kind to us younger kids. My deepest sympathies to all his family & his many friends. ~Linda Campbell

“ I am saddened to see that a giant of the forestry community, Barte Starker, has passed away. Those three words; giant, forestry, and community, capture just some of what Barte meant to those who knew him. He was a kind, gentle, and friendly man but he made a giant difference in this world. He was passionate about forestry, using his energy to promote and advance forest management. He was involved in his community and supported it in many different ways. We can all aspire to make as big an impact on our community and our world. Trees that Barte planted (both literally and through his management of Starker Forests) will continue to grow and benefit

our world. So will Barte's other contributions. Our world is diminished with Barte's passing. New "seedlings" may be coming along to take his place, but I sense a large gap with Barte's passing . I especially feel a loss of someone I knew and respected. My most sincere condolences to his family and everyone at Starker Forests.
