

Michelle Alexander Ryker Sexton

March 1, 1994 - June 22, 2018

Michelle-Alexander Ryker Sexton, aged 24, joined the massive multiplayer game in the sky on June 22, 2018, in Corvallis.

Michelle was an avid runner, gamer, reader/writer, who loved the music of video games. Michelle's smile dazzled and they loved sharing their geek in conversations with friends and family. They loved making in-play videos of their favorite video games and sharing on social media.

A recent tour of the southern United States with the FEMA Corps gave Michelle a renewed appreciation for living in the Pacific Northwest.

Michelle struggled much of their life, with mental illness, with gender identity, with finding happiness. Their partner, Molly brought so much love to them and they were a better person for having Molly in their life.

They are survived by their loving partner, Molly Witten; parents, Althea Rizzo and David Sexton; stepfather, Lucian Rizzo; sister, Meghan Sexton; and cat named, Bacon.

A celebration of life will be held at 1 p.m. this Saturday at the Fire Side pavilion in Avery Park, Corvallis.

SW Avery Park Dr
Corvallis, OR 97333

Tribute Wall

“ Know in your heart that the sadness you feel...in Alexander is now filled with freedom. Throughout your journeys with him, you have expressed to him in your thoughts, be free. In all the hikes, climbs, etc., you seem to know he is now free. I pray for you...that your heart becomes healed, that your pain lessens, and that when you think of him you can soar with him spiritually and come to understand his peace and feeling of being free.
