

Bradley "Brad" King

May 14, 1965 - November 2, 2025

Bradley "Brad" King passed away peacefully on November 2 in his longtime group home. He was born on May 14, 1965 and lived a life full of joy, mischief, and heartfelt laughter. He grew up surrounded by the love and support of his family, which carried him through a lifetime of wonderful memories and meaningful connections.

Brad spent many years pursuing his love for the outdoors and nature. He worked with pride and dedication at Colorwheel Gardens, where his passion for landscaping and gardening flourished. Whether tending to plants or crafting beautiful outdoor spaces, his green thumb and creativity brought color and life to all he touched.

Outside of work, Brad enjoyed a wide variety of hobbies and pastimes. He enjoyed golfing and mini-golf, hiking, and neighborhood walks. He loved riding his bike, and never missed an opportunity to enjoy a good show—especially belly dancing, live music, and watching professional wrestling. Bradley was also known for his impeccable sense of style. Always dapper, he had a knack for choosing just the right hat to complete his look, from bucket hats to newsboy caps and flat caps alike, and could sport a pair of suspenders like no one else. He was a lifelong fan of the color red, had a sweet tooth, and loved connecting with others by holding hands.

Brad will be remembered for his kind spirit, playful humor, and compassionate energy. He is survived by his siblings: the Curtis and Janelle King family; Jeff and Susie King family; and the Laurie and Dennis King family. He was also an

uncle to 4 nephews and 1 niece. His spirit will be remembered fondly by the many friends and caregivers whose lives he touched through the years.
