“ *It was always a pleasure to visit with Dorothy. She loved her family and had good stories to tell about each member. She was very proud of her boys and their families and what they had accomplished. I enjoyed her memories about raising the boys and how much they could eat. She said she baked four loaves of bread at a time just to stay ahead of them.*

I tagged along one morning when she and Richard were feeding their cows. they were a good team. I miss them both.
