“ Edwin, what a kind beauty, I watched him speak of things that would make life a better place, he inspired me to grow, older gracefully, he represented life at its fullest teaching speaking with one as he went along, he was more than a teacher when he spoke, painting a full pallet of wisdom, how grateful I am to see and here what he was up to, as many have for a thankful prayer as we have been left with, his helping gave us, courage. His spirit bubbled over with knowledge thank-you dear for all you did for many. sincerely Darlene Kay Osburn
