“ I have many fond memories of Aunt Etya. She was always a gracious, loving, giving and creative person. When I was a child, she taught me how to use the loom to weave and showed me how to play the recorder. There was always music and dance and laughter in the home. She welcomed me into their homes in Nebraske, California and Wisconsin over the years. The last time I visited them in California, with a friend, she insisted on packing us a picnic lunch complete with sandwiches, fruit and wine before we left. Her creativity and generous spirit (which reminds me of my own mother) will always be remembered and sorely missed.
