ER

“ Every time I see a corgi I still think of Dr Norek. It was my pleasure to know him as our ArtsCare calligrapher, returning again and again to the projects that allowed him to stay in touch with the medical community. He frequently walked our neighborhood joyfully giving folks his best grip handshake as well as words of encouragement. I have no doubt he continues to care for others now that he has transitioned. Blessings.

JH

Dr. Norek was a wonderful man and my doctor for a few years. He was one of the first doctors I met when I started working at GSH in 1979 and remained one of my favorites. He lived only a few blocks from me and I so enjoyed seeing and visiting with him when he was on one of his walks. He most certainly will be remembered by all who knew him and greatly missed.

ME

I told Dr. George Norek, after I ran my first 10k that I wanted to send him flowers for encouraging me to do so, but I didn't! He said he wished I had, that it would have been a first. He was both mine and my husband's Doctor until he retired, and he kept us healthy for all those years. He is missed and will be remembered.

ES

Dr. Norek was my physician for 25 years. He remains, to me, the best caretaker of my health I have encountered. I miss his expertise, his authenticity, and the respect and kindness that gave me comfort and trust in the healing relationship that he tendered with his patients. A great man, remembered...
