“ Kelly brought her dog by to show me when she was taking him for a walk. She said she and her daughter's hamster and the dog did floor exercises together at night which must have been a sight to see!

I knew about her Cancer diagnosis last year along with her hair falling out, I assumed that was the end of the Cancer.

Recently I found out that Kelly had Cancer again. I was shocked and I still am!

She often told me about the achievements of her son and daughter and how proud she was of both of them, She also spoke about her mother and the paintings she had done. She said she would send me pictures on the internet but she never did.

I have lost a friend with Kelly's passing. I am still in shock! The German Shepherd dog she had is in one of the books I wrote. My good memories of her remain, She was fun and funny and she adored animals even my naughty fuzzy ones,

I will miss Kelly a lot. I won't be able to call her and invite her down for a coffee with me at the local Pig and Pancake but I will definitely remember her and her humor and zest for life and how proud she was of her family. My good memories will remain with me

Hugs to everyone from me and my two dogs and one cat,

Suzy Nelson

“ Kelly was a previous home health worker who helped me and a good friend. We laughed a lot when we went to the community pool and when she prepared Smoothies for us afterwards.
