“ *I am in a deep black hole of loss.  
I miss my Daddy terribly even though I feel him all around me. We still talk every day, though in a different way.  
He was the best Daddy one could ask for. I have so many wonderful memories spent with him that he will forever live in my heart. Those can not be taken away from me.  
His sense of humor was enormous, as was his generosity, he would help anyone in need. He was a teacher without a classroom, a hard working individual w/superior work ethics. He loved his family from his childhood to his gr-grandbabies. He was a caretaker for mother nature and loved her animals.  
He was mostly a pacifist but fought in WWII when just a young man which had a devastating affect on his life.  
I miss his laugh, his eyes, voice, the voice of wisdom, warmth, and love. I miss my Daddy terribly even though I feel him all around me.  
I am in a deep black hole of loss.*
