“ I worked for Lori in her early stages of multiple Sclerosis when she was forced to stop working due to her leg not having enough strength to hold her body weight, my job was basically to be with her while Howard worked at HP. She was always so sweet and polite, despite her illness she would always ask if I could Please walk her to the bath room, or if I could please microwave her food, and always would say Thank you a million times. Last time I saw her was on January 6th, when I left I gave her a kiss, we said "I love you, see you next time" There was no next time, I'll miss her.

“ I enjoyed spending time with Lori talking about coming from the East coast and our love of dogs.

“ I did so very much enjoy when Lori and I would sometimes sit together at a Rotary meeting and share conversation. She was always a delight to visit with. I have a special place in my heart for her. She will truly be missed.
