“ *Am so sorry Jacqueline for your loss of Mark. We had always been friends through the years even after our Divorce. Was there with his walk after Your Father had passed as he reached out and he knew I had walked that road with my Mom when she passed. My prayers are with you and he had sent a picture of him and his faithful dog on the back of his tailgate. We talked at least once a month and now I know why my emails had gone unanswered. Truly have lost one of the most gently souls in the world and GOD blessed my with his presence in my life and we always spent our time together in Colorado as an adventure. Jan Harvey (Johnsen)*

“ *So sorry for your loss. knew Mark from our days in Colorado as maintenance technician's. We went on a trip together exploring southern Colorado (Mesa Verde, Chaco Canyon).Mark helped me with many home projects, he was a talented repairman especially with electricity. He was generous person helping out many people and animals as he loved dogs. Very kind and warm person will be missed by many. Again my condolences . Stephen Vierling*

J(

Jacqueline I am soooo sorry to hear that Mark has passed away and that we were always friends after the divorce. We talked every month and was there especially when Your Father died as he knew I had already walked that path.

I truly have been blessed with his presence in my life and sooo grateful GOD allowed our hearts to heal and be there for each other. He never let on that anything was wrong and now I know why my emails had went unanswered. Prayers to your family.
