

## Maxine Eutrophie Sprick

July 23, 1937 - September 2, 2025

Maxine Eutrophie Sprick (1937-2025) lived humbly and fully, striving to give to others what she could and exploring the avenues of life when she could. She helped her late husband live his life as fully as possible, and she helped raise their two sons. She was a consummate helper. As was once said of her, "You don't ask Maxine if she brought something. You ask her how many she brought." We pray that she rejoins her husband in spirit and watches over us with care and love.

“ I worked with Maxine when I was 16-18 years old. Always enjoyed her advise and points of views on life. I have thought of her often over the past 40-42 years.

“ Maxine showed up on my doorstep when I was moving in to my new house across the street. She was holding an iced fruit drink from the convenience store. She smiled and simply said “Hi, I’m Maxx, M a x x with 2 x’s! Welcome to the neighborhood. You are going to love living in the neighborhood!” Dear Maxx, I will really miss you.
