“ Pam was always so full of life and positive energy! Her presence was a gift to everyone around her. I have fond memories of visiting her house in Tallahassee when I was a kid, playing games with her children Nick, Jay, and Jill. Pam was always very welcoming, outgoing, hospitable, and always active. Dullness simply turned and fled in her presence. What a great woman to know.

*God Bless you, Pam. You and your family are in my prayers.*

“ I am so sorry to see that Pamela has passed away in death. Please accept my family's condolences. May your hearts be comforted by the Bible's promise at Revelation chapter 21, verse 4 that very soon death will be no more as well as by God's promise at John chapter 5 verses 28 and 29 which shows that soon we will have the opportunity to be reunited with our dead loved ones once again right here on earth.

“ We are just shocked at Pam's passing. We were all so young with small children when we first met in Tallahassee. Pam found out about "Jill" in our pool on mothers day!! We shared many laughs, sorrows, and secrets through the years. We lost touch over time after Mike and Pam moved to Oregon but always considered ourselves old friends. Mike, Nick, Jay, Jill and family, you are in our thoughts and prayers, you have lost the "life force" of your family. Pam was a force of nature and will leave a large hole in the world.  
love,

“ I will never forget meeting you Pam. Over ten years ago I struggled with breast feeding my first child and you came to my house for a home visit. You changed my life and were so amazingly helpful! Then, 6 1/2 years ago I accepted a job as a nurse on the maternity floor and got to know you on a different level. Your personality was amazing and you were a joy to work with. I will miss you! I know you are having fun in heaven! Praying for your family! - Jenni Locey Copeland

“ I worked with Pam at Good Samaritan Hospital for many years. She was always a shining light willing to befriend and have fun with anyone. She was a kind and caring nurse and put so much energy into helping her patients. We went on a trip to Mexico together and I probably never would have gone if she wouldn't have used her amazing gift of encouragement and vivacity to convince me. I am very glad to have known Pam and am so sorry that her family has to go through this. I will miss you Pam!
