JO

“ To the family of Bob Newton. . . .

Bob and I worked together at Oregon State University and our connection was through committee meetings reflecting business at Student Health Services. He was friendly and had a good sense of humor and made my transition with student affairs an easy one.

I would come to learn that Bob's wife was a nurse who knew my mother, also a nurse, and working at Student Health. She and I would often see them at Philomath College art events and the Friday night spaghetti dinners at the church.

Bob was a wonderful person to know and we will miss him.

My condolences to your family.
