

Sophie Bullard

September 8, 1945 - June 17, 2025

With deep love and sorrow, we share the passing of Sophie Bullard, who left us peacefully on June 17th at the age of 79. Sophie was born in Bethel, Alaska, to her beloved mother, Mancuaq. She was the cherished sister of Andrea Hurley, beloved mother to Deena and Fred, nana to four grandchildren, three great grandchildren, aunt to many, and a guiding light to all who knew her. She was a college graduate, and with her passion for science and discovery carried out a distinguished 40-plus year career as a world renowned research chemist with the US Department of Energy in Oregon. From a young age, Sophie embodied kindness, humility, and a quiet strength that would define her life. Though we mourn her passing, we are forever grateful for the love she gave so freely. Her warmth will remain with us always, and her memory will continue to guide us through the days ahead. Sophie Bullard will be deeply missed—but never forgotten. Her love, strength, and humble wisdom live on in the hearts of all who knew her.
