“ I first met "Peggy" Baier as the custodian of Wiegand Hall at OSU where I had an office in 1986. I would bike in late at night to do some work and she would be there cleaning up. Sometimes we would chat about various things. She was kind, generous, mostly quiet, and grandmotherly. I remember her asking if I liked leeks, and a few days later, she had 2 grocery bags filled with them which I enjoyed for a few weeks.

*I left Corvallis in 1988 to work in Federal Govt, but came back a decade later. I was surprised to see her again outside of a grocery store in town. She invited me out to her place to pick the most varieties of Asian pears I've ever seen. There were many different types of roses, vegetables including great winter-type squash, a shed full of foods they had canned including wonderful canned cherries, and 3 tractors, two of which she had worn out.*

*Peggy sorely missed Louie and handling the place alone was becoming so much work. I know she was trying to downsize. Then one year I didn't receive any return calls from her, and eventually the phone listing disappeared. I don't know what happened to her and figured she sold and moved away. Then I saw the notice in the 19Jun2021 G-T.*

*She was a wonderful lady and would have been great to have as a neighbor. May her soul find eternal peace.*

*Brian Lee, Corvallis*

“ My beautiful Obasan (grandmother) Toshiko. I love you and hope you know how much you taught me. When I planted my garden I thought of you. How abundant and beautiful your garden always was. I wanted to make it there so badly to see you and you meet your newest great grandson Phoenix. You lived a long life, I was sure you were going to be one of the ones who would live to 100. I will miss you and I love you very much. Until we meet again💔
