“ I have so many wonderful memories of mom that it is hard to pick one. She was my mom and my friend. When I was young - we enjoyed being together, whether it be going shopping, to Quartzville to shoot the rapids on inner tubes or simply layiing on opposite ends of the couch reading. She always was there for me and supported me in my decisions whether she agree with me or not. My only regret as an adult is that we did not live closer so we could have spent more time together. She will ve sorely missed but will always be in my heart.
